**Let's Get Started On Your Custom Kitting Project!**

# Simple Steps to Build Your Perfect Kit

## Step 1: Define Your Kits Purpose

Decide how your kit will be used—employee recognition, onboarding, events, or something else.

## Step 2: Select Products & Get Pricing

Choose the items for your kit and receive individual pricing for each, giving you a clear subtotal.

### Minimum Kitting order is QTY 10

*Less Than Minimum Charges do not apply to most items that can be added to a kit. Lowest qty pricing will be used to calculate total price.*

## Step 3: Calculate Kitting Fee

A **kitting fee** of \$0.63 (G) per item applies. This covers assembling your kit, including folding flat boxes, adding crinkle paper, sorting products, and carefully packing them into each kit. Multiply by the number of items per kit and the total kits ordered.

*(Example: 4 items per kit = \$2.52 (G) x total kits ordered.)*

## Step 4: Add Custom Box Pricing

A **custom box fee** per kit applies.

Small Box - 10Lx7Wx3T = \$3.95 (C)

Large Box - 12Lx9Wx3T = \$4.95 (C)

If kit contains a Tumbler, add \$1.00(C) to increase box size to 6" H

Multiply by the total number of kits ordered for final packaging costs.

## Step 5: Factor in Art Setup Fees

A **one-time art setup fee** of \$40.00 (G) applies for artwork, plus a **kitting setup fee** of \$6.50 per item in the box.

*(Example: A kit with 4 items = \$26.00 (G) additional one time kitting setup fee.)*
